

User Acceptance Testing (UAT) Template

Date	18 July 2026
Team ID	
Project Name	Nutrition Assistant
Maximum Marks	

Project Overview

Project Name: Nutrition Assistant

Project Description: A MERN-stack nutrition assistant providing physical calculators (BMI, BMR/TDEE), daily food & water tracking, recipe discovery, meal planning, an AI nutrition chatbot, and an admin panel for platform moderation.

Project Version: 1.0

Testing Period: To be scheduled by the team

Testing Scope

Registration & login, profile management, BMI/Calorie calculators, food & water tracking, recipe search & favorites, meal planning, AI chatbot, and admin panel operations.

User stories USN-1 to USN-12 covering end-user and administrator flows (see Data Flow Diagram & User Stories document).

Testing Environment

URL/Location: Deployed application URL (see project documentation)

Credentials (seeded by npm run seed) — Admin: admin@assistant.com / admin123, User: user@assistant.com / user123

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User registers, logs in, and views a personalized dashboard	1. Register a new account 2. Log in with the registered credentials 3. Open the dashboard	Dashboard loads and shows correct calorie, water and BMI stats for the account		
TC-002	BMI Calculator computes correctly for metric and imperial units	1. Enter height/weight in metric 2. Switch to imperial and re-enter 3. Compare results	Correct BMI score and category shown for both unit systems, matching unit test values		
TC-003	Food logged under a meal type updates daily nutrition totals	1. Log a food item under a meal slot 2. Log a second item	totalNutrition recalculates via the pre-save hook and matches the sum of logged meals × servingCount		

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
		3. View the nutrition log for the day			
TC-004	Water logged updates today's water total and dashboard progress	1. Log a water entry 2. Refresh the dashboard	WaterLog.amount recalculates and the dashboard hydration progress bar updates		
TC-005	Recipe search & favorite toggle	1. Search/filter recipes 2. Favorite a recipe 3. Open "My Favorites" 4. Unfavorite it	Recipe appears in filtered results; favoriting adds it to My Favorites; unfavoriting removes it		

Bug Tracking

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	No online payment / premium tier is integrated yet	N/A — feature not implemented	Medium	Open	Planned for a future release
BG-002	AI chatbot falls back to a rule-based reply when the Gemini quota/API key is unavailable	1. Remove GEMINI_API_KEY 2. Send a chat message	Low	Open	Working as designed; documented fallback behaviour
BG-003	Password reset tokens are stored in-memory, not persisted to the database	1. Request a password reset 2. Restart the server 3. Attempt to use the token	Medium	Open	Reset tokens are lost on server restart; planned move to persistent storage
BG-004	Configurable reminder interval in Settings does not yet trigger push/email notifications	1. Set a reminder interval in Settings 2. Wait for the interval to elapse	Medium	Open	Planned for a future release
BG-005	Admin cannot bulk-approve or bulk-delete multiple system foods at once	1. Open Admin Panel 2. Attempt to select multiple food items	Low	Open	Currently supports one-by-one management only
